- Exhibition area: sharing technologies
- Workshops: marketplace on smart technologies
 - Clean Tech
 - Digital Society, ICT
 - Bioeconomy
 - Health&Biomedical
 - Industry 4.0
 - Advanced materials
 - Smart transport and Infrastructures

Who?

EUREKA mission is to bring innovations to the market. The Innovation Week is an inclusive event: everyone who has at heart market oriented innovation can participate.

Why?

Explore opportunities

The Innovation Week is the place where companies can learn all about EUREKA funding opportunities.

Global collaboration

With the centre of gravity of the global economy shifting outside Europe, the landscape for innovation is also changing rapidly, through international collaboration. EUREKA accompanies this change by helping European companies to internationalise their activities outside the borders of the old continent.

Knowledge sharing

The Innovation Week aims to facilitate the sharing of know-how and best practices. EUREKA success stories, innovation heroes, panellists, key note speakers and company stands will share their experience on present challenges and future solutions.

B2B Matchmaking

During the whole week there will be B2B matchmaking sessions for more than 1,000 expected participants.

SUPPORTS TECHNOLOGY TRANSFER

EUREKA NETWORK PROJECTS

- EUREKA's most flexible instrument.
- Applications can be submitted all year long.
- Open to any type of organisation and technology.
- Tap into national innovation support programmes in 40+ countries.

Find out more at

> www.eurekanetwork.org/network-projects

CLUSTER PROJECTS

- Strategic initiatives launched by major European multinationals.
- Biannual or annual calls.
- For SMEs, a Cluster project is ideal for a collaboration with a major player.
- Focus on particular industrial sectors in different countries: hardware, software, telecommunications, renewable energy, new materials and more.

Find out more at

> www.eurekanetwork.org/clusters

EUROSTARS-2 PROJECTS

- Designed for R&D-intensive SMEs.
- Two annual cut-off deadlines for project applications.
- Open to all types of technologies.
- Products resulting from Eurostars projects must be market ready within 2 years.
- Eurostars is a joint EUREKA-EU programme, in effect in 30+ countries.

Find out more at

> www.eurostars-eureka.eu

E!nnoVest

- Investment readiness programme.
- Business and investment coaching of innovative SMEs.
- Promoting innovative SMEs towards the investment community.
- Facilitating matchmaking with internationally active investors.

EUREKA INNOVATION AWARD 2016/17
innovation across borders

Innovation award winners

Eurostars 5999 Ar-Tex

Herniated discs are not only painful, they are a major burden to health systems worldwide. A new textile-based device developed by the AR-TEX project could be a game-changer, improving back-surgery outcomes and relieving the suffering felt by millions every year.

Spain, Germany
Budget: € 1 M

EURIPIDES² 12-1310 UPMOST

Ultrafast lasers could make next-generation electronic display technologies significantly more cost-effective to manufacture. These lasers have now been rolled out by EURIPIDES² UPMOST project partners in production plants in Asia and have helped to open up new business opportunities.

France / South Korea / Belgium
Budget: € 2.6 M

ITEA ADAX

The increasingly networked nature of governments, banks and many other critical infrastructures make them increasingly vulnerable to cyberattack. ADAX's relentless focus on market needs resulted in a range of innovative cyberdefence products and services.

France / Turkey
Budget: € 6.6 M
